

Ski Touring Gear List

Technical Gear:

Avalanche Safety

- Beacon – with extra batteries
- Shovel
- Probe

Touring Gear

- Backpack 30-40L – must be able to carry skis
- Skis and touring bindings
- Ski touring boots – should have a “walk” mode and be well broken in
- Ski Poles
- Climbing skins
- Ski crampons

Mountaineering Gear

- Harness with gear loops
- Two locking Carabiners
- Mountaineering Ice Axe 50cm or less
- Boot crampons with anti-bot plates

Clothing:

Base

- Two pairs of socks
- Synthetic underwear
- Lightweight long underwear (tights work well in the summer)
- Lightweight synthetic top
- Synthetic T-shirt

Mid Layer

- Medium weight synthetic top or insulating vest

Outer Layer

- Soft-shell style jacket and pants (Should be windproof or wind resistant)
- Insulating jacket – light down or synthetic to fit over everything
- Storm protection, Gore-Tex or equivalent Jacket and Pants
- Three pairs of gloves: liners, mid-weight, warm pair– wind stopper fleece style works well and a shell that can be worn over everything is good system
- Gaiters (ankle to mid calf height works best in summer)
- Winter Hat and neck gaiter (a Buff works great for a neck gaiter)

Miscellaneous:

- Goggles

- Sunglasses, sun screen, lip balm
- Sun hat or visor
- Small personal first aid kit – blister stuff, band-aids, ibuprophen...etc.
- Headlamp with extra batteries
- Camera
- Hut Stay Specific
- Lightweight sleeping bag liner
- Ear plugs
- Hand Sanitizer
- Tooth brush and toothpaste
